## **HOROSCOPES** HOLIDAY MATHIS

Today's birthday (March 9). You believe the best in others, and that's what they'll show you. Something amazing happens this month: You communicate the things that bother you, and your loved ones change their behavior. April brings a professional boost. A current of romance sweeps you off your feet in May. August brings a move.

Aries (March 21-April 19). Express your creativity. You'll feel powerful when you are making something that didn't exist in the world before. And the feeling could inspire you to take control of a situation you used to think was too big for you.

Taurus (April 20-May 20). Make time for love, and love will stretch that time in wonderful ways. You'll feel as though you are suspended in a perfect bubble of bliss. These are the memorable moments of life.

Gemini (May 21-June 21). There's a lot that has to happen before you can put your thoughts into action. You need permission, money and time, not to mention a good plan. Don't go off half-cocked. For now, jot your ideas down. Make copious lists.

Cancer (June 22-July 22). You control how quickly you move up in the world by monitoring how much you give. Givers get — it's that simple. When you

want more, you'll give more quite naturally.

Leo (July 23-Aug. 22). However much you're moving your body, it's time to turn it up. You need to be strong both mentally and physically for the challenges ahead, and exercise will accomplish both. Consider signing up for a class or special training.

Virgo (Aug. 23-Sept. 22). A prideful person you know may be making a mistake. Others are inclined to tear this person down emotionally. Make a sacred intention that you will be the kind of person who supports others when they need it.

Libra (Sept. 23-Oct. 23). Just as there is a solid scientific reason that oil and water don't mix, there is a very sound logic behind your decision to stay away from a certain person. You may not be able to explain it, but stand by it all the same.

Scorpio (Oct. 24-Nov. 21). Everyone's idea about what is attainable is different. What's

realistic to you may be extremely unrealistic for someone else. Remember not to expect others to have the same goals and standards as you.

Sagittarius (Nov. 22-Dec. 21). It's highly unlikely that you'll fall into a comfortable groove over the next few days, but that's a good thing. You'll take achievement over comfort for now.

Capricorn (Dec. 22-Jan. 19). The thing you used to enjoy so much is now becoming slightly tedious. What's going on? Don't be alarmed. This is just a signal that it is once again time to modify your schedule to fit your changing priorities.

Aquarius (Jan. 20-Feb. 18). Give yourself a time limit. If you think you have all the time in the world, that's how long it will take to get things done. You deserve to get on track now. Set a deadline and tell people about

it. Pisces (Feb. 19-March 20). An upcoming event is too important to deal with casually. Make specific plans. Surround yourself with reminders of the details. You're about to pull off something truly grand.
